Sir,

My name is Alvin Varghese and I am a third year computer science student at St.Joseph's College of Engineering and Technology,Palai.I am really excited about the internship provided by your company on Internet of Things.

I have always been a big fan of your company and I used to follow every news provided by the company for the past few years .When I saw the news regarding the internship program on your website,I was very happy at the chance of working alongside great industry experts like you and your team.

Along with my academic achievements ,I have tried to build a strong base in the field of Internet of Things.I have attempted a number of IOT meets and have completed many courses successfully.Along with my knowledge in this field,my technical background as an engineer would be an excellent addition to your team.The chance to work with your company will help me to grow experience and will help me to learn lot from you and your team and it would be a 'dream come true' for me.

I have attached my biodata for your reference.Thank you for your time and patience.I am eagerly waiting for your positive response.

Sincerely,

Alvin Varghese
CS student
SJCET,Palai.
